Activa, LarrainVial's private equity arm, instructed Carey in the capital increase and acquisition of control of FenVentures.

FenVentures is a fund manager focused on venture capital investments. LarrainVial is one of Chile's largest Chilean investment banks and, with this deal, it is perhaps the largest financial institution in Chile formally entering into the venture capital market.

Partners Cristian Eyzaguirre and Francisco Guzmán led the Carey team advising Activa.

FenVentures instructed Vial Serrano Abogados.
