Clifford Chance, through its Latin America practice in Washington D.C., has counselled the Special, Industrial and Port District of Barranquilla (District of Barranquilla), as borrower, on a \$100,000,000 senior unsecured financing provided by Deutsche Bank, AG.

The funds were used by the District of Barranquilla for the purpose of refinancing an existing debt for the financing of public infrastructure projects included in the 2020-2023 development plan "Soy Barranquilla" (I am Barranquilla). The plan aims to focus on social investment, especially in the health, education, security, housing and public services sectors of the city.

Clifford Chance's team included counsel **Alberto Haito** (pictured) and associate **Joyce Moore**.
