ECIJA GPA has announced the opening of a new office in Cuenca, Ecuador, after integrating with Estudio Central, together with its team led by **Juan Valdivieso González** (pictured), **Sebastián López Hidalgo**, **Xavier Molina López** and **Santiago Vega Malo**, partners of the firm.

"We have always looked to Azuay and particularly to Cuenca as a necessary destination to provide modern and quality legal services. Cuenca's commerce and industry are not only an example of good corporate governance, but also contribute significantly to the national GDP. Just one business group in this region represents 4% of the GDP", mentions **Gonzalo González**, managing partner of ECIJA GPA in Ecuador.

Estudio Central has lawyers with experience in all branches of law, highlighting its advice on corporate matters, dispute resolution and to different companies and institutions in the region.

Thanks to this opening, ECIJA consolidates as the only international law firm in the city of Cuenca, joining the Quito, Guayaquil and Manta offices in the country.
