Mexican law firm Gonzalez Calvillo has assisted Balandra Capital Operadora in the structuring of Bucerías Funding, as an investment vehicle, and in the negotiation of an investment by the latter in Take Flight Ventures (Birdman) in exchange for a 27.66% stake in its share capital.

This transaction took place on 17 May, where the firms Diaz Rivera, Lalieu Rosas, Deloitte Mexico and Cardenas Ortiz Monasterio also provided legal advice.

The advice included corporate and contractual aspects, as well as the negotiation of the necessary documents in order to carry out the aforementioned acts, and involved the coordination of a multidisciplinary audit team and the structuring of the investment vehicle through which the investment in Take Flight Ventures was carried out.
