González Calvillo has counselled Grupo Crédito Maestro, as borrower, in connection with the execution of a \$150 million MXN credit facility granted by CI Banco.

The proceeds of this transaction are intended to be used to finance the loan portfolio of Crédito Maestro's subsidiaries.

This is a complex financing, as the negotiations for its execution were carried out in record time and required the structuring of the various contracts involved, including a credit agreement, a management services agreement and a master management services agreement, as well as the required collateral package in the form of a management trust, source of payment and guarantee.

Crédito Maestro, founded in 2002, is a Mexican company dedicated to providing cash loans to Mexican government workers, pensioners and retirees, offering them the benefit of payment through payroll deduction.

GC's team was led by partner **José Ignacio Rivero** (pictured left), with the support of senior associate **Jacinto Ávalos Capín** (pictured right), associate **Luis Ernesto Brieño Jiménez** and law clerk **Dalia Stofenmacher**.
