Gómez-Pinzón has represented CrossRegional Management-Clave Créditos in a USDC (US dollar-linked stablecoin) denominated financing granted by Credix Finance Series Fund I to an Atonomous Estate established by an Affiliate of Clave Créditos.

To carry out the transaction, the USDCs were converted into USD for the purchase by Credix of a Note issued by the Atonomous Estate, the source of payment for which is solely the proceeds from the collection and disposal of a portfolio of financial assets acquired by the issuer.

This deal marks the first tokenised financing in Colombia, making a commitment to financial inclusion through the blockchain.

Gómez-Pinzón's team included partner **Daniel Londoño** (pictured left), senior associate **Catalina Prieto** (pictured right), junior associate **Lucía Martínez** and student lawyer **Sara Ferrer**.
