Hogan Lovells BSTL announced the arrival of María Teresa Garza, Rocío Sánchez-Arriola, David Esquivel, and Luis Fourzán to the firm's Monterrey office.

In the last year the firm has almost doubled in size in Monterrey, following an increase in demand from national and international clients in the energy, telecom, finance and real estate sectors, all of which are expanding in the area.

The newly-added team specializes in tax and administrative litigation matters and, under the leadership of partner Jaime Espinosa de los Monteros, will be in charge of strengthening the tax consulting and litigation areas, as well as the transactional practice both in Mexico City and Monterrey.
