KLA Advogados advised CorpServices Group on the acquisition of majority interest of **Assessor Bordin**, a traditional and well-established accounting firm; **Quality Tax**, an experienced tax consulting firm focused on mapping of tax opportunities for its clients and tax BPO; **ASAP**, a paralegal company focused on intelligent solutions for bureaucratic requirements, and **IGNIS**, a specialized firm that offers accounting and tax solutions for financial institutions, fintech and capital market players.

CorpServices Group is a Singapore company established in Brazil in 2018, with global investors. The first acquisition in January 2020 of Assessor Bordin marks the entry of CorpServices Group in the Brazilian market, with the latest acquisition of IGNIS, completed in May 2022, confirming its consolidation path in Brazil.

The presence and consolidation of CorpServices Group is important because it is one of the first groups to be established, in Brazil, as an "one stop shop" that offers corporate and integrated solution for companies. Combining BPO and innovative technology, CorpServices Group facilitates internal processes fostering the core business of its clients.

KLA relied on partner **Melissa Kanô** (pictured) and associate Yasmin Simon.
