KLA Advogados assisted **Paques Brasil Sistema Tratamento Efluentes** (a company belonging to Skion Water group), on the acquisition of the majority interest in **Faxon Química**.

KLA assisted Paques Brasil and Skion Water with the structure and with the negotiating of the transaction agreements.

With this acquisition, Skion Water expands its portfolio of solutions and reinforces its growth in Brazil and Latin America. SKion Water is a subsidiary of SKion GmbH, the investment company of German entrepreneur Susanne Klatten. SKion Water provides reliable and efficient water and wastewater treatment solutions, including the development and implementation of innovative water technologies.

Faxon Química develops and produces chemicals for effluent and industrial water treatment. It is nationally recognized for its quality and excellence in providing the best alternatives for water revitalization.

KLA Advogados relied on partners **Karin Alvo, Felipe Omori, Henrique Lopes and Luiz Filipe Aranha** (pictured to left from right) and associates Rodrigo Candido and Vanessa Vieira.
