Paulo Valed Perry Filho has returned to Siqueira Castro, the Brazilian law firm has announced. He joins the labour practice group in the Sao Paulo office.

Perry is a law graduate from the Santa Úrsula University Law School in Rio de Janeiro and also holds a postgraduate certificate in labour law from the Cândido Mendes University, also in Rio. He has over 20 years of experience in the areas of labour and social security.

Perry was a partner at Demarest Advogados in Sao Paulo for three years until 2015. Prior to that, he was a partner at Siqueira Castro for 12 years.

"We are very happy to welcome Paulo Perry back to our firm. Our clients and team throughout Brazil already know and admire him for a long time, and his arrival occurs at a very appropriate moment because the labour practice area has grown substantially due to the economic crisis our country has

been unfortunately facing. He will be a huge reinforcement because of his excellence and experience, without mentioning the satisfaction of welcoming back an old friend to our team," says Carlos Fernando Siqueira Castro, partner and chairman of the Executive Committee of the law firm.
