

MINERA VALLE CENTRAL INSTRUCTS CAREY ON \$35.3 MILLION LOAN

Posted on 22 August 2017

Category: [News](#)

Carey advised Minera Valle Central on a syndicated loan granted by Export Development Canada and BBVA.

Minera Valle Central is the Chilean subsidiary of Canadian copper miner Amerigo Resources. The company produces copper concentrate by processing fresh and historic tailings from Codelco's El Teniente mine, the world's largest underground copper mine.

The \$35.3 million facility will be used to finance the second phase of the expansion of a processing plant operated by Minera Valle Central.

Partner Felipe Moro led the Carey team advising Minera Valle Central.

Larraín y Asociados acted for the lenders.
